SOME POINTED QUESTIONS

Asked by a Man Who Has Always Been a Republican. [Indianapolis Sentinel.]

Dr. V. H. Munroe, of Seymour, who has always been an ardent Republican, writes the *Democrat* of that city as follows: Many conscientious Republicans nows: Many conscientious Republicans—men who do not want office, but are Republicans from principle—are asking themselves questions like the following:

1. Why is the average yield of \$100 invested in manufactures, five times as great as the average yield invested in agriculture?

agriculture? 2. Why do the farm implement makers of this country advertise in Buenos Ayers the same plow for \$9 which they advertise in the United

States for \$18.

3. Why was quinine \$3.00 per ounce when there was a duty on that drug as against 30 cents per ounce now; and if lowering or abolishing the tariff would

"destroy American industries," at this advanced day, why has the number of quinine manufactories in the United States grown from three, under "protection," to six under free trade, and all

of them prosperous?
4. Why was wool 10 cents per pound higher under the lowest tariff than it is under the highest tariff?

is under the highest tariff?

5. What excuse or pretext can there be for maintaining the present excessive tariff schedule—or for adopting the still more inipultous McKinley increase—when the country is at peace with all nations, save the solid South, and when the surplus is become an inexhaustable for the termet unaccountry and sneed. fund to tempt unscrupulous and specu-lative legislators?

lative legislators?

As to pension frauds. The man who served creditably in the army of the Union; he who saw service and suffered; and is now in wise enfeebled, injured or in need, should be pensioned in the most generous way. But all ablebodied men, who, as a matter of truth, were not soldiers in the grand and sacred meaning of that term, should not draw support from the General Government. If there be no distinction made between the man who served his country four hours and the one who served four years, then it would appear that governmental justice and equality is at a low standard.

ABOUT WHEAT.

THE SUMMARY OF THIS YEAR'S EXPERIMENTS.

At the Ohio Agricultural Experimen Station With Fifty Odd Varieties on the Same Soil and Under the Same Conditions.

The following table gives the principal results of a comparison of varieties of wheat made this season on the farm of the Ohio Agricultural Experiment Station, the complete report of which will be published in an early bulletin of the station. The test was made on a piece of bot-

tom land, about seven acres in area and very uniform in quality. It was in clover in 1889, and was plowed for wheat after removal of the seed crop of

clover.

Nearly all the varieties were more or less affected with stinking smut; the relative injury from which is indicated in the last column of the table.

Emperor seem to be simply new names for the old Michigan amber. Pole resembles these closely, but is slightly earlier, has a shorter straw and a more drooping head. Hungarian and Geneva cannot be distinguished in the field; the one, however, is very smutty, the other not so. Diehl, Mediterranean, Golden Cross, Missouri Blue Stem and Seneca Chief, are also identical. We also have the same wheat under the

All the varieties suffered more or less from the winter killing during the severe freeze of March. In the next to the last column of the table is given the per cent. of injury from this source, as estimated about April 1st.

Patrons Picnic at Wauseon.

Wauseon, Aug. 18.—The Patrons of Industry picnic held at the Fulton county fair grounds last Saturday brought to-gether one of the largest crowds ever gathered in this county. About 10,000 people were on the grounds and every one had a splendid time. The Speaker's of the day were Col. J. H. Brigham, master of the Ohio State Grange, and A. S. Partridge, of Flushing, Mich., master of the Michigan State grange. Both made able addresses and were frequently applauded. Two bands and numerous drum corps enlivened the occassion.
